FOR FAMILY DOCTORS, NURSE PRACTITIONERS AND CLINIC STAFF IN BC

Westpeak Wellness

Online counselling across British Columbia, by secure video, in English, Punjabi and Tagalog

HOW A PATIENT GETS HERE: NO REFERRAL NEEDED

Counselling with a Registered Clinical Counsellor is not an MSP service, so there is no referral form and no letter to write. The patient books a **free 15-minute consultation** themselves at **westpeakwellness.com/book**, which shows the real open times. The consultation is where fit and scope are settled, and where a counsellor will say plainly if another service would suit the patient better.

To ask about scope or fit before suggesting us, email **info@westpeakwellness.com**. With the patient's written consent, information can be shared with the clinic; without it, nothing about a patient can be confirmed.

WHO A PATIENT WOULD SEE

Camille Granda, RCC, CCC

English and Tagalog · sees clients in British Columbia

Offers: individual counselling, couples counselling, family counselling and EMDR.

Focus: trauma; anxiety and chronic stress; grief, loss and life transitions.

westpeakwellness.com/practitioners/camille-granda

Savneet Singh, RCC

English and Punjabi · sees clients in British Columbia

Offers: individual counselling.

Focus: anxiety; depression; trauma and attachment.

westpeakwellness.com/practitioners/savneet-singh

FEES

Initial consultation, 15 min	Free
Individual counselling, 50 min	$140
Couples counselling, 50 min	$175
Couples, extended, 110 min	$340
EMDR intensive, 90 min	$190

Weekly EMDR is billed as an individual session. Many extended health plans reimburse an RCC, depending on the plan; patients check theirs. No MSP billing and no direct billing. After a crash, ICBC pre-approves 12 counselling sessions in the first 12 weeks with no referral; this practice is not in ICBC's Recovery Network, so the patient pays and claims.

FOR A PATIENT ON A MEDICAL LEAVE

The free **stress leave pay calculator** at **westpeakwellness.com/tools/stress-leave-pay-calculator** shows a patient, week by week, what BC sick days and EI sickness benefits would pay on their own wage, and where a disability plan or WorkSafeBC takes over. Only a physician or nurse practitioner can certify the leave itself; a counsellor cannot.

SCOPE LIMITS

- No diagnosis, prescribing or formal psychological assessment.
- No court-ordered, custody or forensic work.
- Not a crisis service: sessions are scheduled, with no on-call line.
- Active psychosis, eating disorders needing medical monitoring, or withdrawal management are better held by a specialised team.

In crisis: 9-1-1 if in immediate danger · 9-8-8, call or text · BC Mental Health Support Line 310-6789, no area code needed.
